

At Devlyn Construction, we recognise our responsibility to protect and preserve the environment for present and future generations. As a leading building construction company, we are committed to minimising the environmental impact of our operations and promoting sustainable practices throughout our business activities.

Devlyn is committed to:

- Complying with all applicable Environmental laws, regulations, statutory obligations and other relevant requirements;
- Managing and reviewing our work activities ensuring strategies are implemented to actively mitigate and control our environmental impact;
- Ensuring adequate resources and skills necessary to effectively manage our identified environmental impacts;
- Implementing measures to reduce pollution and waste generation, including adopting efficient construction methods, using environmentally friendly materials where possible, and promoting recycling and responsible waste management practices;
- Focusing on working collaboratively with our project partners and stakeholders to shape a sustainable future, by integrating sustainable design principals into our projects where possible and seeking to minimise the use of non-renewable resources, maximise energy efficiency, and optimise the lifecycle performance of buildings;
- Promoting green building certifications and encouraging the adoption of environmentally friendly construction practices among our employees, subcontractors and stakeholders.
- Investing in education and training, to ensure that our people and those working on our behalf understand the principles of sustainable environmental practices as well as their personal and legal obligations;
- Setting measurable objectives and targets, and continuously working towards meeting and where possible exceeding these;
- Promoting the purchasing of recycled products where possible while actively seeking to identify innovations to reduce our carbon footprint.
- Continuously monitoring, auditing and reviewing our Environmental Management System to ensure that it remains effective and aligned with the best practice nature of our business.

The Senior Management Team within Devlyn Construction is responsible for ensuring implementation and monitoring of the Environmental Management System and continuously reviewing its performance against our objectives.
